- Tested and approved by the KEMA Institute

* When used as directed.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN.

DIRECTIONS FOR USE

USE THIS PRODUCT ONLY AS DIRECTED.

DO NOT MIX AQUAFINESSE™ WITH ANY OTHER HOT TUB CLEANING PRODUCT, AS THIS MAY CAUSE ADVERSE EFFECTS

SHAKE WELL BEFORE USE – read instructions carefully.

APPLICATION INSTRUCTIONS:

1. Drain the hot tub completely. Before refilling with fresh tap water, run the hose for 60 seconds.
2. Pour the correct amount of AquaFinesse™ (as indicated on the bottle) into the water.
DO NOT OVERDOSE!
3. Place one sanitiser tablet in the slow-release dispenser, close the cap, fill with water and place the dispenser directly on top of the filter (basket). Check the dispenser once a week to make sure the tablets are still intact.
4. Turn on the jets for a minimum of two minutes to activate the AquaFinesse™ water care system.
5. Repeat the treatment once a week, on a set day.
6. Clean the filter at least once a week to ensure total cleansing.
7. Make that your ozonator is working correctly. Maintain it regularly and consult your dealer if you believe that it is not functioning properly.

FIRST AID

If swallowed, drink large quantities of water immediately. Do not induce vomiting. Avoid alcohol. Seek immediate medical attention.

If in the eyes, hold the eyelids open and flush with a steady gentle stream of water for 15 minutes. If wearing contact lenses, flush with water for 5 minutes, remove the lenses and flush the eyes for a further 10 more minutes. Consult a doctor immediately.

STORAGE AND DISPOSAL

Store AquaFinesse™ in a cool dry place, away from extreme temperatures. ALWAYS STORE IN THE ORIGINAL CONTAINER. KEEP OUT OF THE REACH OF CHILDREN. When the bottle is empty, discard it with your household refuse or offer it for recycling if available.

TROUBLESHOOTING

IMPORTANT

The patented AquaFinesse™ system ensures pure, clean water and releases old dirt and calcium build-up from pipes and equipment inside your hot tub. This process may cause the water to appear cloudy during the first few weeks of use. Continue using the product as directed; once the process has been repeated two or three times, your water will be clear, clean and free of any greasy or slimy feeling.

IF YOU CONTINUE TO EXPERIENCE CLOUDY WATER

1. Clean your filter more frequently.
2. Check that the sanitising tablet is in the slow-release dispenser.
3. Open all the jets and activate them to catch all dirt in the filter.
4. Change the water every three months.

Suggestions

- Purchase an additional filter element and rotate the filters regularly.
- Take a normal shower before taking a hot tub bath.
- Do not use oil-based salts or smelling agents.
