

MODEL 2008RL “ROTATE & LOCK” A-FRAME LADDER **FEATURES & SPECIFICATIONS**

- Vinyl Works Canada manufactures this pool ladder to meet or exceed NSPI/BOCA/ANSI requirements for above ground/on ground pool ladders
- The Model 2008RL a-frame ladder is manufactured using maintenance free resins with stainless steel hardware
- The ladder is adjustable from 48" to 56" for proper installation requirements and stability (maximum adjustment from 47.50" to 56.25")
- This ladder is packaged in one easy-carry carton and can be shipped via courier. The ladders are palletized in quantities of 12 (44" x 48" pallet), 312 per truckload for easy wholesale shipments
- This a-frame ladder is designed for load bearing weight of 300 lbs. / one person
- This ladder features permanently embossed signage and verbiage specifying NO DIVING / NO JUMPING and to SECURE & LOCK LADDER WHEN NOT IN USE (all required signage)
- This a-frame ladder features a “**rotate & lock**” design. The exterior ladder section can rotate 180 degrees and can be locked to form an entry barrier for greater security (lock not included)
- The ladder features four treads on the exterior side, five treads on the in-pool side and a top platform tread. The in-pool ladder treads measure 18" wide x 4.5" deep and the exterior treads measure 15" wide x 7" deep. All tread rises measures 11.7" high (on average) for both sides. The top platform measures 20.25" wide x 12" deep. All treads and top platform have anti-skid surfaces (rise from top treads to platform dependant on pool height adjustment)
- Double extended handrails on both sides of the ladder assist both entry and exit of the pool. The handrails facilitate climbing from all treads
- The ladder is required to be secured to the pool structure for greater stability. Hardware and instructions are provided with each ladder for this purpose. Optional “quick-straps” are available for alternative installations / alternative pools – call for details or visit our website for more information
- A **CONVERSION KIT** is available for the ladder (Model RLCVK - sold separately). If a customer decides to build a deck; the Conversion Kit can be used; the ladder is separated and the customer is able to build an in-pool deck ladder for use with a pool deck
- An optional **FOOT BATH** is available for the ladder (Model 2008FB - sold separately). The foot bath fits under the exterior portion of the ladder and provides a sound base. Fill the foot bath with an inch or two of water so unwanted debris, grass cuttings or dirt are kept out of your pool
- An optional **IN-POOL LIGHT** is available for the ladder (Model OPT12V - sold separately). The 12 volt light fits easily into a pre-molded bracket on the in-pool ladder. It includes interchangeable colored lenses, a 10ft cable and a UL listed transformer. Enhance your swimming environment and provide a light for a safe exit / entry point of your pool at night
- The Model 2008RL has been designed to accept / be used with our 24" Resin Pool Fence. The pool fence can attach directly to the a-frame ladder by use of a **Connector Kit** (Model CNKLS - sold separately). When used with the fencing the entire pool can be enclosed and secured (no openings)

REMEMBER, NOTHING REPLACES PARENTAL SUPERVISION - ALWAYS SWIM SAFELY !
