Advanced technology

The Polaris Eos promises improvements in technology ahead of its time with 5GHz frequency. The high-speed communication band extends range and quality of transmission for immediate powering up.

Real home automation

The Polaris Eos creates real home automation with easy controls for the pool, spa, and water features from the equipment area or from inside the home. With an optional

Power Line Carrier (PLC) kit, the Polaris Eos acts as a transmitter

and through X-10 receiver modules operates up to 256 electric devices including stereos and lighting.

Modular system components

Sophisticated modular components allow the homeowner to personalize their system to specific needs. Designed for total automation, the Polaris Eos has built-in expandability that allows options to be added long after the pool is built. Wired or wireless remotes add convenient in-house or poolside control. Every Eos wireless remote is licensed by Microsoft Windows CE, enabling technology updates from any laptop.

Easy navigation menus

Easy to read LCD panel shows menu interfaces that are simple to navigate, schedule and change giving the homeowner total control over the home and pool environment. Buttons and displays are backlit for easy operation in the dark of night.

The Polaris Eos is found in the nicest of places

- 5GHz technology for longer range, better transmission, and two-way communication
- Add on components, options and functions even after installation is complete
- Optional kit and X-10 modules operates lights, stereos or any electric device
- Expandability: up to 24 actuators, 32 high power and 24 low power options
- Controls salt chlorinators plus Watermatic C2100 ORP/pH controller
- Operates all pool and spa combinations, together or separate
- Sets scenes and shortcuts at the touch of a button
- Provides two dimming options for mood lighting
- Wireless remote is robust, water-resistant
