

# D.E. FILTER STANDARD SYSTEM OWNER'S MANUAL

### **CLEARWATER II D.E. FILTER SYSTEM OWNER'S MANUAL**

Our ClearWater II D.E. Filter System is shipped from Waterway complete with everything you need right in the box. Assemble filter system only after above-ground pool is installed. Fill pool with water. Do not raise water level above pool return line.

The pool equipment should be located between pool skimmer and return line. The filtration system should not be closer than 2 ft. and not further than 5 ft. from the pool. The ClearWater II D.E. Filter System needs to be on a completely flat surface (e.g. patio block, cement slab, etc.). The pump will require a 110 volt/20 amp service.

## WARNING: A GFCI is required. Follow national and local building and safety codes.

Before opening shipping carton, make sure box is in the upright position. Inside the carton, you will find:

- 1. One base
- 2. One pump (packaged in separate box)
- 3. One filter
- 4. Two lengths of 6 ft. hose
- 5. One bag with fittings

### **INSTALLATION INSTRUCTIONS**

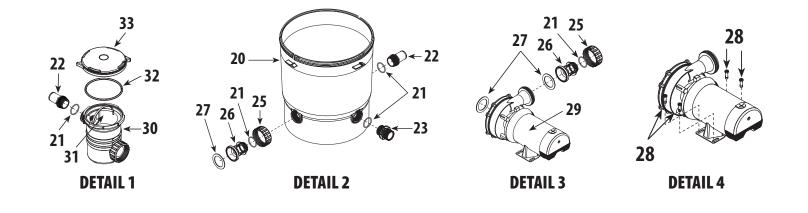

## WARNING! READ ALL INSTRUCTIONS AND WARNING LABELS BEFORE OPERATING FILTER!

- 1. Place filter and base on a level, secure surface. Place the pump on the base to the left of the filter. The pump should now be facing the filter marked "Inlet". There is no need to disassemble filter or pump assemblies.
- 2. Open pump trap lid and remove 2" gasket. Place 2" gasket into union nut. Hand tighten union nut to suction side of pump (Detail 5).
- 3. Secure pump to base using the pin & anchor assemblies (Detail 4).
- 4. Open fittings bag and remove coupling assembly (Detail 2). Assemble 2" gasket, coupling, coupling o-ring, and 2" union nut, and thread into inlet side of filter.
- 5. Thread 2" union nut to pump discharge (Detail 3). Thread hose adapter with o-ring, to pump trap suction side (Detail 1).
- 6. From the fittings package, remove 1 ½" hose adapter and o-ring (Detail 2). Thread into the outlet side of the filter tank.

- 7. Remove 4 hose clamps from the fittings bag. Select one of the hose lengths and slip one clamp over the end of hose adapter. Place the end of the hose onto the hose adapter (pump suction) and the other end to the hose adapter end of the pool skimmer. Repeat steps with filter outlet to pool return.
- Remove the Lid Handle (#1) from the fittings bag and attach it to the top of the Lid Assembly (#12) as shown (Detail 6). Secure Proline Filter to Proline Filter Base using Phillips Head Screws (#24a - 2) (Detail 7 & 8). Fill pool until water level is halfway up length of skimmer throat.
- Open air release knob. Plug in and turn on pump. Air will pass out of the filter through the air release knob. Once water discharges from knob, close it.

**NOTE**: To remove Lid Assembly, take off Filter Nut (#3), insert Filter Wrench (#20a) in notch between Filter Body (#20) and Lid Assembly (#12). Twist and separate as shown in Detail 7.

## **CLEARWATER II D.E. FILTER SYSTEM REPLACEMENT PARTS**

#### TROUBLESHOOTING

MOTOR DOES NOT START:	Make sure motor is plugged in. Circuit breaker in OFF position. Thermal Overload in tripped position. Wiring installation incorrect. Incorrect line voltage. Defective wiring.	EXCESSIVE PUMP NOISE:	Worn bearings. Suction line clogged. Pump incorrectly mounted. Hose fitting partially closed. Clogged trap basket.
	-	INADEQUATE FILTERING:	Inadequately cleaned system.
THERMAL OVERLOAD TRIPS:	Low voltage.		Excessive dirt load.
	Wiring installation incorrect.		Chemical imbalance.
	Dual voltage pumps mis-wired. Inadequate ventilation.		Inadequate system pressure.
		FILTER LEAKS:	Dirty o-ring or gasket.
NO WATER FLOW:	Obstruction of suction or return line. Clogged impeller. Suction system air leaks. Slice valve closed. Clogged hose fitting. Clogged basket. Dirty filter.		Improperly seated o-ring or gasket. Missing o-ring or gasket. Filter nut installed improperly.

#### **LIMITED WARRANTY**

Waterway Plastics manufactures its products and equipment in accordance with very high standards of workmanship. We use the best materials available and maintain the highest quality procedures practical in the industry. In accordance, waterway warrants its products as follows:

All plastics parts such as jets, valves, skimmers, manifolds, suctions, lights, and other plastic components manufactured by Waterway will be replaced or repaired if the defects are determined by Waterway to be the responsibility of Waterway Plastics for a period of three years from the date of installation. The warranty does not cover filter cartridges, D.E. grids, o-rings, pressure gauges, pump seals, light bulbs or any parts not manufactured by Waterway. Warranty applies to OEM's and Distributors of Waterway Products.

The Supreme and Hi-Flo Pumps will receive limited warranty from any defect in material or workmanship of one year from the date of manufacture. This includes the motor but not the motor seal.

All thermoplastic molded filter bodies and rotational molded sand filter bodies have a warranty of ten years, warranted on a pro-rata life basis. If a defect becomes apparent during the first year, the body will be exchanged for a new body if the defects are determined by Waterway to be the responsibility of Waterway Plastics. If a defect becomes apparent after the first year from the date of manufacture which, in the opinion of Waterway, will require replacement, the body will be exchanged for a new tank on an adjusted service pro-rata life basis. Charges to the owner, on the pro-rata life basis, will be determined by the actual number of months installed beginning with the date of installation.

Products that fail or become defective during the warranty period, except as a result of improper installation, bad water chemistry, accidents or negligence on behalf of the owner, freezing, earthquakes, fire, floods, or other acts of nature, shall be repaired or replaces at Waterway's option without charge to the owner. This process will be completed within 90 days of receipt of the defective product barring delays caused by the acquisition of component parts not manufactured at our facility.

To obtain warranty replacements or repair, defective products should be returned (transportation paid) to the place of purchase, or to Waterway. It should include a description of the defect and the circumstances surrounding the incident or problem.

Waterway shall not be responsible for cartage, removal and/ or reinstallation labor, or any other such costs incurred in obtaining warranty replacements.

Warranty applies to OEM's and Distributors of Waterway Products.

This warranty gives you specific legal rights. You may also have other rights which very from state to state.
