

PE24GVA

24-Volt Valve Actuator

Simplified Setup, Easy Cam Adjustment

Upgrade pool and spa projects this summer with the new PE24GVA 24-Volt Valve Actuator. This reliable pool and spa solution simplifies water flow adjustment of two- and three-way diverter valves and allows for tool-free cam adjustments. Easy to install and maintain, the PE24GVA lets pool professionals visually set the valve position in just seconds, ensuring the perfect water flow to match application needs.

FEATURES & BENEFITS

- **Tool-Free Setup** – Easily adjust internal cams without need for any tools
- **Infinite Cam Adjustment** – Infinite cam rotation adjustment for precision water flow
- **Compact Streamlined Design** – Traditional actuators can be up to 10% wider
- **Reliable Control** – Adjust water flow of 2-way and 3-way diverter valves
- **Universal Design** – Compatible with all pool/spa valves and controls
- **Improved Seal Design** – Weatherproofed for optimal reliability and extended service life

APPLICATIONS

The Intermatic PE24GVA valve actuator brings simplicity and reliability to a wide range of water flow applications:

- Pool and Spa Combinations
- Water Features
- Bubblers
- Solar Systems
- Decorative Fountains

EASY SPIN AND SET CAM ADJUSTMENT

- 1 Push down and turn the top cam to change the position of the counterclockwise stopping point.

- 2 Push down and turn the bottom cam to change the position of the clockwise stopping point.
