

All AquaCal units feature  Titanium Heat Exchangers and  compressors. Our patented technology allows us to build the most durable and most cost efficient heat pump... ever! AquaCal Heat Pumps are available in a variety of sizes with an assortment of features so you can select the model that best suits your specific needs and budget. Your local pool professional can compute your heating requirements and install the AquaCal unit that is right for you.

## AquaCal Heat Pumps

- Use no fossil fuels
- Environmentally friendly
- Minimize your carbon footprint
- Eliminate noxious gas emissions
- Save energy by transferring free heat from the air rather than creating heat
- Programmable thermostats for stable temperature control
- Meet all AHRI efficiency standards

\* - ratings outside the scope of ARI standard 1160 water temp/ambient air/relative humidity

\*\* - rated in accordance with ARI standard 1160 water temp/ambient air/relative humidity

*nature's free heat*

- A heat pump uses nature's 'free heat' from the air to heat your pool water.
- Electricity is only needed to transfer the heat, not create it.
- It is significantly less expensive than gas or electric heating.
- This makes a heat pump the most economical, safe and trouble-free way to heat your pool.

## for your BUDGET and for the ENVIRONMENT

AquaCal is BY FAR the MOST COST EFFICIENT swimming pool heat pump available anywhere.

### COST of OPERATION

\*Chart based on \$3.00 per gallon LP Gas, \$2.20 per therm. of Natural Gas, 13¢ per kilowatt and a heat pump with C.O.P. of 6.3

## AquaCal's complete line of heat pumps are SUPERQUIET

120 dB  Jet Takeoff	100 dB  Chainsaw	80 dB  Alarm Clock
70 dB  Vacuum Cleaner	60 dB  Normal Conversation	30 dB  Whisper

# 55 dB

HEATWAVE SUPERQUIETS  
Virtually silent  
from 10 ft. away

# HEATWAVE SUPERQUIET

features:

- patented counter-flow water management system
- heats water faster and more efficiently
- impervious to chemical corrosion
- durability without sacrificing performance
- lifetime warranty

### MICROPROCESSOR CONTROLLED WITH DIGITAL DISPLAY

- accurate and easy to read bright blue display
- time and temperature settings
- on-board self diagnostics
- microprocessor controlled defrost cycle

- state of the art technology
- highest efficiency
- quietest operation
- unsurpassed reliability
- superior durability

### CORROSION PROOF CABINET

- rust proof
- fade proof
- impact resistant

### ICEBREAKER Heat & Cool Models Only

- extends swimming season longer than any other heat pump on the market
- continue to heat in freezing temperatures to minimize heat loss
- cool your pool to a refreshing temperature
- set to heat, cool or autotemp
