Recommended pool water temperature 33° F to 97° F (1° C to 36° C). Humidity 0-95% Non-condensing.
* Measured from lens to beginning of Edison base.

Light Operation Basics

Color Splash 3G's multi-color features are selectable by turning the existing pool light switch off and on, known as power cycling. The amount of time the light is off during power cycling determines the light feature activated.

Available Light Features

- Color Lock**
select a solid color or a color blend
 - Show Lock**
select a light show
 - Reset**
synchronize multiple lights
 - Memory**
store the last "locked" color or show
- Refer to the Installation and Operation Guide for complete use instructions.
