<thead>
<tr>
<th>Year</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>2nd Year</td>
<td>- 25%</td>
</tr>
<tr>
<td>3rd Year</td>
<td>- 40%</td>
</tr>
<tr>
<td>4th Year</td>
<td>- 60%</td>
</tr>
<tr>
<td>5th Year</td>
<td>- 80%</td>
</tr>
</tbody>
</table>

DO NOT RETURN DEFECTIVE PART TO DEALER

The defective part should be returned, postpaid, to:
Confer Plastics, Inc.
97 Witmer Road
North Tonawanda, N.Y. 14120-2421

DO NOT RETURN DEFECTIVE PART TO DEALER

Enclose proof of purchase (receipts, etc.) showing date purchased, your name, address, and daytime phone number. You will be notified of cost to replace part.

WARNING: GATE MUST BE LOCKED WHEN POOL IS NOT IN USE!

SAFETY RULES

- Always follow the manufacturer’s recommendations for the safe use of all hand tools and equipment.
- Do not use the Confer-Gate for any purpose other than that for which it is intended.
- When lifting awkward or heavy loads, have another person help you.
- Always padlock gate when not in use.
- Consult your local Building Department before installation of your pool and equipment.

DANGER: Use a cordless drill for assembly and installation. Never use an electric drill in or around the pool.

Complete SIG System consists of:

- 1-Step-1
- 1-6100B Inpool Ladder
- 1-Gate
- 1-Picket Kit (PK-SIG)

Assemble Step-1 and 6100B per their instructions

Printed in U.S.A.
Step 1.

Remove handrails by taking out the four #10 x 1-1/4" screws holding the handrail to the handrail posts and lifting upward.

Step 2.

Slide both gate adapter posts down over the short handrail posts until they bottom out.

Step 3.

Re-install both handrails by inserting the notched ends of handrail into the handrail posts. Fasten the handrails and the gate adapter posts at all of the pre-marked locations using #10 x 3/4" screws.

Step 4.

Pickets cut apart

Using a utility knife carefully separate the pickets into one picket, two picket, and three picket assemblies.

Step 5.

Align one of the triple pickets into the notches of the handrail at the top of the unit. Fasten the pickets in place, at the top of the pickets, using the #10 x 3/4" screws. Continue placing and fastening the double pickets and then the single picket. Repeat for the opposite handrail. Cover the ends of the screws with the protective caps.

Step 6.

Fasten the bottom of the pickets to the step unit at the pre-marked locations using twelve (12) #10 x 3/4" screws.

Step 7.

Spread open the flange of the hinge mounting post and slide down over the right gate adapter post (installed in step #2) until it comes into contact with side panel. Fasten using eight (8) #10 x 1-1/4" screws at the pre-marked locations on both sides of hinge mounting post.

Step 8.

Spread open the flange of the latch mounting post and slide down over the left gate adapter post (Step 2) until it comes into contact with step side panel. Fasten using eight (8) #10 x 1-1/4" screws at the pre-marked locations on both sides of the latch mounting post.

Step 9.

Fasten the bottom of the pickets to the step unit at the pre-marked locations using twelve (12) #10 x 3/4" screws.

Step 10.

Slide the open gate hinge through the hinge posts pin opening and wrap the gate hinge around the hinge pin. Fasten the hinge at all four pre-marked spots using the #7 x 1/2" self tapping screws. (4 per hinge)

Step 11.

Install the latch to the upper mounting block of the latch mounting post using four (4) #10 x 1-1/4" self tapping screws.
