LAMP AND OPEN.

Questions on Installation 1- 877-709-3846
website: www.litesounds.com

Fine Tuning is the most important aspect of setting up the Litesounds® system. See Install Guide for Assistance.

When finished listening to the Litesounds® system volume your system down.

Enjoy The Litesounds® Experience.
Thank you for your purchase of a Litesounds® System!
The Connector clips can be opened by progressively squeezing the locking pins together (one at a time) and then inserting a screw driver in the opening created.

The Litesounds® fixtures are connected to the main Cable assemblies using color coded pierce-point Connectors.

Inside the Connector are small, Aluminum Stabs which pierce the wire insulation in order to make a proper electrical Connection.

Make sure the wire is aligned so the Aluminum Stabs pierce the center of the wires, and not the outside edges.

After Connector Clip is open place Cable on Aluminum Stabs press firmly. Place lid back on Connector Clip to close.
Position Litesounds® Speaker Lights and Landscape Lights.

Connect Lights with Black Connector Clips and Black Cables.

Connect Speaker Lights with Green Connector Clips and Green Audio Cable.

All Cable is UL Rated for above and below ground.
