## Color Splash LXG Series LED Color Changing Guide

**Power Cycle:** The action of turning the light fixture power switch **off/on**

<table>
<thead>
<tr>
<th><strong>Change Light Show/Solid Color</strong></th>
<th>power cycle the corresponding number of times shown next to the light show/solid colors. (see reverse)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Color Lock</strong></td>
<td>power cycle <strong>thirteen</strong> (13) times</td>
</tr>
<tr>
<td><em>(Lock on color while in light show)</em></td>
<td></td>
</tr>
<tr>
<td><strong>Return</strong></td>
<td>power cycle <strong>fourteen</strong> (14) times</td>
</tr>
<tr>
<td><em>(Return to last saved Color Lock)</em></td>
<td></td>
</tr>
<tr>
<td><strong>Reset/Synchronize</strong></td>
<td>power cycle the corresponding number of times shown next to the light show/solid colors. (see reverse)</td>
</tr>
</tbody>
</table>

**Note:** During power cycle selection process, before the desired light show or color is displayed, there will be a moment without illumination. This is a normal function.
