

Polaris

User's Guide

The Polaris Eos® display screens direct all operations of the Eos automated control system.

Devices and functions are defined on the **Setup** screen during installation.

Measurements and settings are displayed on the **Main** screen or the optional device **Control** screens.

Device schedules, freeze protection, manual operation, etc. are specified on the **Device Manager** screens.

Use the arrow keys to move through screens and menu options. Press <Enter> to select an item. To adjust contrast or brightness, press the left and right arrow keys simultaneously.

For complete information, refer to the Polaris Eos Owner's Manual.

Folders indicate additional screens for an item.

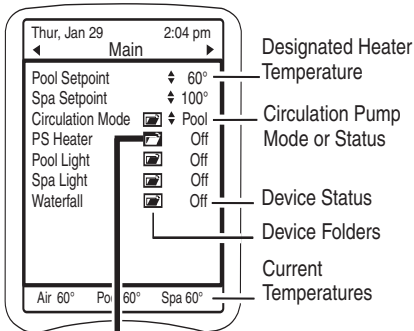

Check boxes turn functions on or off.

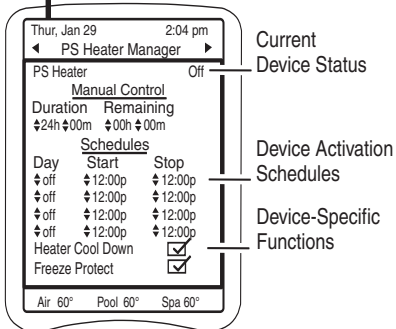

Indicates an adjustment option, use the up/down arrow keys to select or enter a setting.

To set or adjust an item:

1. Use the arrow keys to move the cursor over the item.
2. Press <Enter> to select the item. The item will flash.
3. Use the up/down arrow keys to choose or enter the setting.
4. Press <Enter> to activate the setting.

Select device folder to open Device Manager
