Polaris 480 PRO

A new generation of pool cleaner, combining futuristic engineering with unquestionable style.

Sleek and sporty, with a bold body design and translucent UV-resistant housing, the Polaris 480 PRO contains a wealth of engineering advancements. With a stainless-steel drive chain, WideTrax® tires, and high-performance, corrosion-resistant components, the 480 PRO delivers professional-grade cleaning and long-term durability.

Operating on its own booster pump, independent of the pool circulation system, the 480 PRO works at 100% efficiency. Its four powerful jets provide superior vacuum force and fast cleaning.

Designed for all in-ground pools, the Polaris 480 PRO vacuums, sweeps and scrubs the walls and floor of any size or shape pool. It is available in a TankTrax® model for vinyl pools and a BlackMax® model to complement dark-bottom pools.

The Polaris 480 PRO will provide years of dependable service, leaving you with plenty of time to enjoy your pool. For information on Polaris products, call 1-800-833-7922 or visit www.polarispool.com.
