

# Posi-Clear™

Cartridge Filters for  
Inground Pools by Sta-Rite®

## Positively more cleaning power

The Posi-Clear™ cartridge filter is designed to remove more dirt and impurities, leaving your water ultra-clear and alluringly fresh. And the specially-designed manifold cartridge is even capable of removing suntan lotion and body oils. Now that's squeaky clean! As an industry leader in pool filtration, Sta-Rite has developed the technology to significantly extend the time between cleanings. You'll spend more time enjoying your pool and a lot less time maintaining it. That's the cleaning power of the Posi-Clear:

- Posi-Clear's cartridge filtration process provides superior water clarity and adds a sparkling shimmer by day or night.
- Built tough with high-density ABS thermoplastic for years of extended service.
- Posi-Ring® closure permits fast, easy access for routine maintenance.
- The Posi-Clear filter does not require backwashing, so chemically-treated, heated water is not wasted.
- Maintenance is as simple as spray rinsing the cartridge module with your garden hose.

# Posi-Clear™ Cartridge Pool Filters

## Just one look

Top-mounted pressure gauge is conveniently positioned for easy reading.

## Year-after-year toughness

Rugged, high-density composite resin will never corrode and weathers the elements.

## Safe, easy access

Posi-Ring® closure provides safe, easy access to the filter module. Fast in, fast out!

## High-performance flow

2" ports increase capacity and improve hydraulic performance.

## Tight spaces

12" diameter base permits easy installation in new or retrofit applications.

## The best of everything

Less maintenance... more cleaning power... crystal clear water – everything you'd expect from a world class filter. Pool professionals highly recommend the Posi-Clear for its affordability and performance, and consider it to be one of the best values in the marketplace.

### Less maintenance... YES!

The filter tank is designed to direct water through more of the filter's surface area, which boosts the cartridge's dirt-handling capacity without clogging. Increased dirt-holding extends the time between cleanings.

### Spin and rinse

A quick spin of the Posi-Ring® closure and you have complete access to the filter module. Simply spray-rinse the cartridge and in minutes you're back to relaxation and fun.

## Filter Performance

Model	For Pools up to (Gal.) 8 Hr. Turnover	Filter Area (Sq. Ft.)	Flow Rated at 1 GPM per Sq. Ft.
PXC75	36,000	75	75
PXC95	45,000	95	95
PXC125	60,000	125	125
PXC150	72,000	150	150

**Operating Limits** – Maximum continual operating pressure is 50 PSI. Maximum operating water temperature within the filter is 104°F (40°C).
